Electrical South

THE LEADER IN INDUSTRIAL ELECTRONIC

REPAIR MANAGEMENT IS STRONGER THAN EVER

With more than 30 years of experience, Electrical South has continually set the standard in the industrial electronic repair business. We can repair or replace over 100,000 different part numbers from virtually any industrial electronic equipment manufacturer.

In fact, Electrical South is stronger than ever. After becoming a **Schneider Electric** company in 2006, we have expanded the list of industrial electronics we repair or replace.

MAKE THE MOST OF YOUR ENERGY

Our evolution to **Schneider Electric**, the global specialist in energy management, re-affirms our commitment to provide you with innovative solutions, best-in-class customer service, and exceptional quality in everything we do. We are proud to be your partner, and we are dedicated to helping you make the most of your energy.

SETTING THE STANDARD MEANS...

- Delivering quality quickly and consistently.
- Being customer driven, accountable and web-enabled.
- Remaining on the cutting-edge of technology.
- Utilizing state-of-the-art test equipment.
- Consistently developing new capabilities through aggressive research and development.

Maximize your productivity and profitability with industrial electronic repair services of the highest quality and utmost reliability.

You Have the Power to CHOOSE...

ONE VENDOR —

■ TO SUPPORT YOUR INDUSTRY

Electrical South has decades of experience servicing the repair needs of discrete manufacturing, process control, and infrastructure industries.

■ TO SUPPORT ALL YOUR AUTOMATION REPAIR NEEDS

Electrical South has experience with more types of equipment and a broader suite of repair services than anyone else in the business.

■ TO REDUCE TRANSACTION COSTS AND SAVE \$\$\$

Electrical South will satisfy all your repair needs and you only have to deal with one source, not dozens.

■ TO WORK THROUGH YOUR DISTRIBUTOR OR INTEGRATOR

AND get the industry's best repair services from Electrical South.

Discrete Manufacturing

UPTIME, QUALITY AND COST. Whether its welding robots or I/O — you can't afford to waste time or money or risk downtime.

Infrastructure

YOU KEEP THE COUNTRY RUNNING. You provide the services that we all take for granted — you need to be running and available 24/7.

Process Control

THROUGHPUT, THROUGHPUT, THROUGHPUT. From regulatory process controls to material handling — you get the product out.

CHOOSE the Best:
Electrical South
Reliable Support to Keep You Going!

Let Us **HELP** You!

DO YOU NEED

- **A full suite of services from your repair vendor?**

Here's Why We Are the Leader

**IN INDUSTRIAL ELECTRONIC
REPAIR MANAGEMENT**

**The Best Repair Process —
NOBODY DOES IT BETTER**

TRACKING YOUR ORDER

- Upon receipt, your repair is immediately assigned its own unique job number and barcoded to ensure accurate tracking and handling.
- Our unique, database-driven process allows you to access information in real time to follow the progress of your repair throughout the process.

Repairs are load tested under specific working conditions to simulate the actual application environment. Every Electrical South technician has access to load test equipment and every repair is of the highest quality.

INSTA-SHIP

- To expedite turnaround – upon receiving your approval to proceed with repair, if we have the unit in stock, your repair item is exchanged for a same part-numbered, remanufactured item. This is done at the regular repair price.

PREPARATION & CLEANING

- Your repair is cleaned to remove failure inducing contaminants, enhancing reliability.
- We replace all aged electrolytic capacitors and components that our database history tells us are high-failure. This increases the reliability and service life of the repaired equipment.

PERFORMANCE TESTING & QUALITY REPAIR

- Reliability is our first priority.
- Automated Testing Equipment (ATE) and custom-engineered System Test Fixtures enable us to fully function test your most complex boards and industrial controls through their full range of performance capabilities.
- A proactive capacitor and relay replacement program ensures that any future problems we anticipate are isolated and corrected.
- All repairs are performed in an anti-static repair environment that helps avoid static-induced failures in the field.
- All repairs are backed by a comprehensive one year warranty.

CALIBRATION

- We know that instrument accuracy is imperative.
- We calibrate precision instruments to NIST traceable standards using documented procedures, ensuring your instrument is not only repaired, but also has the precision your process demands.
- We provide written calibration certificates if applicable.

PACKAGING & DELIVERY

- We protect your repaired asset by hand packing your item in an anti-static enclosure. The item is then foam packed in its own new box, with an installation tag, service report and packing slip.
- The freight carrier's waybill number is also tied into our tracking system so we can help you trace a shipment once it leaves our facility.

Standard repairs are delivered in anti-static bags along with a written quality assurance report, calibration certificate (if applicable) and installation tag.

Here's Why We Are the Leader

**IN INDUSTRIAL ELECTRONIC
REPAIR MANAGEMENT**

**The Best Resources —
UNMATCHED IN THE INDUSTRY**

REPAIR SUPPORT

- We house a vast inventory of thousands of quality parts to support quick turnaround of repair orders.
- Our support teams constantly work to adapt to new technologies and products, taking pride in dealing with exceptional situations and challenges.

RESEARCH & DEVELOPMENT

- Repair reliability is directly proportional to the quality of engineering invested in the repair process. This means you can expect consistent quality with every repair.
- Our Research & Development department strives to give you more value for your repair dollar. Our technicians are armed with the most thorough, cost-effective testing methods, equipment and schematic documentation available.
- Fully exercising all circuits is the best method of reliably testing any piece of equipment. To ensure quality repairs, our highly motivated R&D team continually implements test procedures and hardware platforms that allow full-function testing of your equipment.

REMAN ELECTRONICS

Remanufactured industrial electronics are fully reconditioned, tested, and warranted for 1 year. Remanufactured items are your cost-effective alternative to buying new equipment for:

- Project support
- Inventory support
- Emergency replacements
- Extending the life of your machinery

Remanufactured Industrial Electronics

**WE ARE THE
INDUSTRIAL WORLD'S STOREROOM**

REMAN ELECTRONICS

- Let us be your storeroom. Reduce your inventory. We have thousands of competitively priced, remanufactured or surplus industrial electronic boards and controls in stock. All carry a one-year warranty, and are available for quick shipment.
- These parts are classified as "remanufactured" for good reason: Nothing is certified until it has been thoroughly cleaned, inspected, rebuilt and tested for functionality. You can count on ReMan items to quickly replenish or expand your inventory.

REMAN WEBSITE

- With 365/24/7 availability, www.ReManElectronics.com is the largest dealer of remanufactured industrial electronics on the Web. Here, you can access our inventory of certified, remanufactured goods. To get your production line running again quickly and economically, we can ship a competitively priced, certified replacement item immediately.
